Professional Summary

Computer Science and Engineering graduate with hands-on experience in Software Testing and Quality Assurance (STQA) through professional training and real-world automation projects. Skilled in Manual Testing, Functional Testing, System Testing, API Testing, API Automation, Web Automation, Playwright, Selenium, Postman, Newman, Jira, and Unit Testing. Seeking a Junior SQA Engineer or QA Internship role to contribute to software quality while expanding automation testing expertise.

Education

United International University (UIU)

Bachelor of Science in Computer Science and Engineering

Major: Data Science

CGPA: **3.57/4.00**

Graduation: July 2026

Technical Skills

Programming Languages: C, C++, Java, Python, JavaScript

Web Technologies: HTML, CSS, PHP, Laravel, Node.js, Tailwind CSS

Testing: Manual Testing, Automation Testing (Web), Functional Testing, System Testing, API Testing, API Automation, Unit Testing, Regression Testing, Smoke Testing, Performance Testing

Testing Tools: Playwright (JavaScript), Selenium (JavaScript), Postman, Newman, JMeter, k6

Tools: Jira, Git, Github, VS Code

Database: MySQL

Operating Systems: Linux, Windows

Experience

STQA Trainee

May 2026 – Present

Center for Development of IT Professionals (CDIP), United International University

- Executed manual, functional, API, and web automation testing for web applications.
- Developed API test collections using Postman and practiced UI automation using Playwright.
- Designed, executed, and documented test cases and test execution results.
- Applied SDLC, STLC, and Agile testing practices to project workflows, and integrated performance testing strategies using k6 and JMeter.

Projects

CartUp E-Commerce End-to-End Test Automation Framework

- Built an end-to-end Playwright automation framework for the live CartUp e-commerce platform using the Page Object Model (POM).
- Automated the complete shopping workflow: Login, Product Search, Product Selection, Add to Cart, Cart Navigation, and Checkout.
- Designed a scalable POM architecture with dedicated page classes for maintainable automation.
- Validated navigation, UI behavior, and toast notifications using Playwright assertions.
- GitHub: github.com/Nahin197/cartup-ecommerce-automation-testing

OrangeHRM E2E Automation Testing with Playwright

- Built a complete end-to-end Playwright automation framework using the Page Object Model (POM).
- Automated a 10-step employee lifecycle workflow: Admin Login, Employee Creation, Logout, New Employee Login, Verification, and Logout.
- Implemented Login and Logout test suites with full assertion coverage.
- Developed reusable dynamic test data generation for names, employee IDs, usernames, and strong passwords.
- Executed cross-browser testing across Chromium, Firefox, and WebKit with HTML reporting.
- GitHub: github.com/Nahin197/orangehrm-automation-testing

EverShop E-Commerce API Automation Testing

- Designed and implemented an end-to-end API automation suite using Postman and Newman.
- Automated a complete shopping workflow: Product Search, View Cart, Add to Cart, Verify Cart, Delete Item, and Bulk Cart Cleanup.
- Created six chained API requests with thirteen JavaScript assertions and dynamic test data generation.
- Added error handling for empty-cart scenarios and bulk cart deletion using `pm.sendRequest()`.
- Generated HTMLExtra reports using Newman CLI.
- GitHub: github.com/Nahin197/demoEverShop-api-automation-testing

Mock Competitive Programming API Testing (Manual)

- Designed and executed API test cases using Postman to validate system functionality.
- Validated API responses, status codes, and error handling.
- Prepared detailed API test case and execution reports.
- GitHub: github.com/Nahin197/Mock-Competitive-Programming-API-Testing-by-Postman

Parking Slot Booking System – Unit Testing

- Designed, executed, and documented unit test cases.
- Prepared comprehensive test case reports and documented test results.
- Verified application modules through unit testing.
- GitHub: github.com/Nahin197/SQA-unit-Testing-Assignment-Solving

Achievements

- Champion – UIU CSE Project Show (System Design & Analysis), Fall 2024
- 2nd Runners-Up – UIU CSE Project Show (Advanced Object-Oriented Programming), Summer 2024
- Received the **50% Merit-Based Scholarship** twice and the **25% Merit-Based Scholarship** four times for academic excellence at UIU.

Soft Skills

Communication, Problem Solving, Analytical Thinking, Teamwork, Time Management, Adaptability

Extra-Curricular Activities

- Participated in UIU CSE Project Shows.
- Collaborated on academic software development projects.
